Do You Wish the Finest Bread and Cake?

It is conceded that the Royal Baking Powder is the purest and strongest of all the baking powders.

The purest baking powder makes the finest, sweetest, most delicious food. The strongest baking powder makes the lightest food.

That baking powder which is both purest and strongest makes the most digestible and wholesome food. Why should not every housekeeper avail herself of

the baking powder which will give her the best food with the least trouble? The United States Government tests (Dep. Ag'l Bulletin 13; p.
